

Contents

	Unit	Start with chemicals	Progress with chemicals
			Intensive reading
1 2	Chemical value	Daily items made from chemicals	Chemical applications
2 14	Green chemistry	Environmental protection activities	Cleaner production
3 26	Petrochemical industry	Terms	Safety of oil storage and transportation
4 38	Coal chemical industry	Terms	Crude benzene refining
5 50	Fine chemical industry	Fine chemicals	Extraction of rose essential oil
6 62	Polymer chemical industry	Categories of polymers	Synthesis of polyethylene by the high pressure method
74	Glossary		

			Forward with chemicals
Practical reading	Extensive reading	Reading into China	Further reading
Petrochemical processes and applications	Distribution map of glycol industrial chain	Hou Debang	Graphene—the magical material
Hazardous chemical safety cards	Wastewater discharge standards	Min Enze	Gas hydrates
Operation manual of NYM's centrifugal pump	Pipeline marking	China's West-East Gas Pipeline Project	Desktop chemical factory system
Heat exchanger maintenance	A distillation device	Chen Junwu	Membrane separation
Extract from the safety manual of NYM's cosmetics	Label on NYM's antibacterial hand sanitizer	Tu Youyou	Supercritical fluid extraction
Interaction interface of the C3000 process controller	Synthetic polymers	Plastic Restriction Order	Digital chemistry
