Foreword xiii

Preface and Acknowledgements xvii

Abbreviations xxi

1 Introduction and Overview 1

Research Scope, Themes and Issues 1

Outline of the Book 6

Part 1: Theoretical and Methodological Foundations

2 Working Memory Theories and Models 12

Evolution of WM and the Standard Model 12

Current WM Models and Controversies 15

Toward Unified Theories of WM 22

An Integrated Model of WM 26

3 Working Memory Measures and Issues 29

The Simple Memory Span Tasks 29

The Complex Memory Span Tasks 31

Theoretical Issues Surrounding WM Measures 34

Methodological Issues Besetting WM Measures 37

Summary 41

Part 2: Research Syntheses of Working Memory in L1 and L2 Learning

4 Working Memory in First Language Research 46

WM in L1 Acquisition and Vocabulary Development 47
WM in L1 Listening and Reading Comprehension 51
WM in L1 Speech and Written Production 55
WM in Linguistic Theories and Language Processing Models 56
Summarizing the WM–L1 Association 61

5 Working Memory in Second Language Research 64
Theoretical Perspectives on WM and SLA 64
Empirical Studies of WM and SLA 68
General Findings of the Current WM–SLA Studies 78
Critique of the Current WM–SLA Studies 79
Summarizing the WM–L2 Association 82

Part 3: Toward an Integrated Perspective on Working Memory and SLA

6 An Integrated Framework for Working Memory and SLA Research 86
Reconceptualizing and Redefining WM in SLA Research 86
Putting SLA Domains, Skills and Processes in Better Order 88
Toward an Integrated Framework for WM in SLA Research 89
Basic Tenets and Empirical Consequences of the Integrated Framework 95
Summary 98

7 Working Memory in L2 Acquisition and Processing: The P/E Model 100
WM in the L2 Acquisitional and Developmental Domains 100
WM and L2 Sub-Skills 109
WM in L2 Acquisition and Processing: The P/E Hypothesis 119
General Principles for Applying the P/E Model 124
Summary 129

8 Working Memory and Tasks in L2 Speech Performance 131
Key Issues and Debates in Current L2 Task Performance Research 131

Toward a WM Perspective on L2 Tasks and Performance 135
Future Research on WM, Tasks and L2 Speech Performance 142
Summary 144

9 Working Memory and Language Aptitude in L2 Development 145
A Critical Review of the Current Language Aptitude Models 145
Toward a WM Perspective on L2 Aptitude 149
Future Research on Language Aptitude and WM in SLA 155
Summary 160

10 Conclusions and Implications for Future Research 162
Implications of the Integrated Approach 162
Toward an Interdisciplinary Research Agenda for WM and SLA 166
Additional Research: WM, Language Aptitude, SLA and Beyond 170
Concluding Remarks 172
